

CURRICULUM VITAE Mitchell J. VALDÉS-SOSA

Personal Information :

- Name: Mitchell Joseph Valdés-Sosa.
- Nationality: Cuban
- Date of Birth: March 12, 1950
- Place of birth: Chicago, Illinois, U.S.A.
- Personal Address: Calle 208 # 1931 Reparto Atabey, Playa, Ciudad Habana, Cuba
- Personal telephone: (53)-7-271 89 62
- Personal email: mitchell@cneuro.edu.cu
- Married with a son and daughter.

Institutional Information:

- Name: Centro de Neurociencias de Cuba (Cuban Center for Neuroscience, CNEURO)
- Address: Ave. 25 y 158, #15007, Cubanacán, Playa, 11600
Ciudad de La Habana, Cuba.
Apartado. Postal 6412/6414,
- Telephones: (53)-7-208-4462, 271-8724
- Fax: (53)-7-208-6321
- Email: mitchell@cneuro.edu.cu

Academic Training and Degrees:

- 1966-1972. M.D.. Medical School. University of Havana (UH)
- 1972-1975. First Degree Specialist in Clinical Neurophysiology Medical. School Havana University, Cuba.
- 1975-1979 PhD degree (Sensory physiology of the human auditory system) National Research Center of Cuba.
- 2002 Second Degree Specialist in Clinical Neurophysiology Medical. School Havana University, Cuba.

Academic Positions

- 1972-1975. Junior Research Fellow, National Research Center of Cuba.
- 1975-1982. Research Fellow, Neuroscience, National Research Center of Cuba
- 1982-1985. Assistant scientist, Neuropharmacology and Experimental neurophysiology, National Research Center of Cuba.
- 1985-1991. Assistant scientist, National Research Center of Cuba.
- 1991 to present: Senior scientist, Cognitive Neuroscience, Cuban Center for Neuroscience.

Scientific and teaching Responsibilities:

- 1991 to present: Director, Cuban Center for Neuroscience
- Head of the National Group for Clinical Neurophysiology of the Cuban Ministry of Public Health since 1995

- From 1992-1995 Head of Biological Basis of Psychology chair, Psychology Faculty, Havana University.
- Professor in the Residency of Clinical Neurophysiology since 1990.
- Member of Academic Committee of the Cuban PhD and Master Degree program in Neuroscience since 2003.

Other Responsibilities:

Member of the National Assembly (Parliament) of Cuba since 1993.

Basic Research Topics

- Worked on the development of signal detection methods for the analysis of auditory event-related potentials in newborns and infants.
- Worked with Event Related Potentials (ERPs) in Psychophysiology and developed methods for studying memory for faces, extending the N400 paradigm for use with non-verbal material.
- Has contributed new paradigms in studying visual attention, developing the technique known as Rapid Serial Object Transformation for the study of object-based attentional selection.
- Contributed the first clear electrophysiological evidence for object-based attentional effects in early extra-striate areas in human subjects.
- Has contributed to the understanding of covert recognition processes in prosopagnosia using event related potential recordings and functional magnetic resonance imaging.
- Is presently involved in combining ERPs, functional magnetic resonance, and diffusion tensor imaging in the study of cognitive processes.

Applied Research Topics

- Additionally Valdes-Sosa has worked on the establishment of the national network of Clinical Neurophysiology labs in Cuba, related to the following tasks:
- Organization in Havana City of the screening programme for hearing losses in infants based on electrophysiological testing.
- Organization of the Cuban Cochlear Implant programme.
- Co-directed large epidemiological studies of neuropsychiatric diseases (Dementia in Playa Municipality, Schizophrenia in Guanabacoa and Cabaiguan Municipalities, Learning Disabilities in Centro-Habana Municipality, and Autism in Havana City) as part of the Cuban Program for Research on Handicapped People from 2003 to 2005.
- Contributed to the setting up of the Cuban National Twin Registry in 2006.
- Co-directed from 2005 to 2006 the setting up of a system for the screening of and diagnosis of learning disabilities in Centro Habana Municipality and the implementation of an extensive prevalence study of children with developmental disabilities (Dyslexia, Dysgraphia, Dyscalculia and ADHD)
- Co-directed the creation of the first database of MRI scans of Cuban subjects for morphometry

Key Research Grants

- Human Frontier Science Programme Grant "Oscillatory event-related brain dynamics", awarded in 1995. The team was headed by Brigitte Rockstroh (University of Konstanz) and included Olivier Bertrand INSERM U280, Lyon), Thomas R Elbert.(Institute for Experimental Audiology, Münster), Andreas K

Kreiter (MPI for Brain Research, Frankfurt/Main), Henk Spekreijse (Ophthalmologic Research Institute, Amsterdam), Valdes-Sosa Mitchell (Cuban Center for Neuroscience, Havana)

- Human Frontier Science Programme Grant “Neural basis of nonspatial visual attention: objects, features and behaviour”, awarded in 2001. The team was headed by John DUNCAN (CBU-MRC, Cambridge) and included Leonardo Chelazzi (University of Verona), Nancy Kanwisher (MIT, Cambridge) and Mitchell Valdes-Sosa (Cuban Center for Neuroscience for, Havana)-Cuban Ministry of Health.
- Cuban ministry of Science and Technology Grant “Neurocognitive studies of learning disabilities in childhood” awarded in 2002
- British Council Science Link: Studies of Attention Disorders using Functional Brain Imaging. MRC Cognition and Brain Science Unit (CBU). Awarded 2004

Past Doctoral Students who have obtained their degrees:

- Maria Cecilia Perez (1988). Functional properties of ABR elicited by brief frequency specific stimuli (1988).
- Dra. Maria Antonieta Bobes.(1989). Face Processing Studied with Event Related Potentials.
- Maria Luisa Bringas (1991). Event Related Potentials Signs of Face and Language Processing.
- Rosario Torres ().
- Tupac Pinilla ().
- Valia Rodriguez (2003). Neural Basis of Selective Attention to Transparent Surfaces
- Migdyrai Martin (2004). Cognitive Endophenotypes in schizophrenia
- Luis Velzaquez (2004). Electrophysiological studies of SCA-2 Ataxia

Additionally Valdes-Sosa has acted as advisor for 11 theses for graduation of students from the faculties of Biology and Psychology of Havana University, 4 theses for fulfillment of requirements for Masters degree in Neuroscience and 10 theses for the culmination of the residency of Clinical Neurophysiology which are listed below:

1. Dr. Carlos Mendoza Santisteban. (1999) Potenciales evocados visuales con el equipo Neuronica 2.
2. Dra. Tania Costa (1998) Aplicación de los potenciales relacionados en el monitoreo neurológico.
3. Dr. Daniel Ramírez Rodríguez. (1997) Atención a Objetos o al espacio? Evidencias de un estudio en sujetos sanos y con daño cerebral.
4. Dra. Adnelis Reyes. (1997) Potenciales Relacionados con Efectos Semánticos en Esquizofrenia
5. Dra. Ivonne Torriente Crespo.(1995) La Atención Al Movimiento: Un Estudio Con Potenciales Evocados.
6. Dr. Reinaldo Marrero Mendoza. (1994) Potenciales Evocados Motores por estimulación Magnética. Valores normativos curvas y aplicaciones Clínicas.
7. Dra. Belinda Ramirez Hdez. (1994) Influencias de diversas fuentes de información sobre los Potenciales provocados por palabras escritas.

8. Dr. Andrés González (1988). Componentes Endógenos Relacionados con la Lectura. Dr. Mitchell Valdes Sosa Centro Nacional De Investigaciones Científicas Ciudad De La Habana Cuba.

9. Dra. Valia Rodriguez (1994). Potenciales relacionados al movimiento y retro-alimentación por cargas inesperadas.

10. Dra. Deysi Bello Alvarez. (1979). Estudio Del Reconocimiento Visual De Objetos Previamente Explorados En La Modalidad Haptica en Le Mono Verde.

Membership in Scientific Societies and Bodies:

- Member of the Cuban Society for Neuroscience since 1988, serving on the executive committee for two terms.
- Member of the Cuban Society for Biological Sciences (1979-)
- Member of the Cuban Society Physiological Sciences (1974-)
- Member of the Cuban Academy of Sciences, elected in 1995. Elected member of merit (permanent member) in 2006.
- Honorary member of the Spanish Society for Psychophysiology, 1997
- Member of the National Coordinating Group for Research on Handicapped People in Cuba since 2000
- Member of the Latinamerican society for Neuropsychology (SLAN), serving on the executive committee for one term.
- Honorary Professor at the University of Illinois at Chicago (appointed 2006)

Awards

- Twice awarded (1997 and 2001) National prize for significant research by minister of Higher Education.
- National prize of the Republic of Cuba for scientific research 'Carlos J. Finlay' awarded by the Council of State of Cuba in 1999 and 2003.

Publications

Presentations at Scientific meetings

Valdes-Sosa has participated with more than 110 presentations or posters at national and international scientific meetings, including the Attention and Performance symposia, International Cognitive Neuroscience (ICON) meetings, and the Congress of the International Brain Research Organization (IBRO) among others.

Reviews for scientific journals

Valdes-Sosa has acted as reviewer for several journals including the Journal for Cognitive Neuroscience, Perception and Psychophysics, Neuropsychologia and Vision Research.
